Summary

Computer Science graduate from JIET, Jodhpur, with a CGPA of 7.74, bringing hands-on experience in cloud infrastructure and mobile application development, particularly with Microsoft Azure and Flutter. Recognized as a quick learner and detail-oriented professional, with a strong passion for averaging technology to address real-world challenges. Currently seeking a full-time opportunity to contribute to impactful IT projects and further professional growth.

Technical Skills and Interests

- **Languages**: C, Python, Dart, C#, HTML, CSS, JavaScript, Java (Familiar) and C++ (Familiar).
- **Frameworks**: Android Studio, VS Code, Jupyter Notebook, DotNet (Basics).
- **Core Skills**: Data Structures and Algorithms, OOPs.
- **Databases**: MySQL, SQL Server.
- **Cloud Computing:** Microsoft Azure, Azure Data Factory, Azure Synapse, Azure Databricks, Microsoft Fabric, Azure Firewall, Terraform.
- **Testing Skills**: Functional Testing, System Integration Testing, End-to-End Testing, User Acceptance Testing (UAT), Test Automation.
- **Soft Skills**: Communication, Teamwork, Presentation.
- **Strengths:** Analytical thinking, Problem solving abilities, Quick adaptability to new tools and technologies.

EDUCATION

- **Jodhpur Institute of Engineering and Technology**   2021-2025
    - B. Tech in Computer Science   CGPA: 7.74
- **R.K. Paradise ACA Sr. Sec. School, Pipar City, Jodhpur**   2020-2021
    - Senior Secondary Education   Percentage: 91%

EXPERIENCE

- **Celebal Technologies** {Cloud Infra and Security Junior Associate}   April 2024-January 2025
    - Gained hands-on experience in cloud computing with a strong focus on the Microsoft Azure ecosystem. Contributed to Data Platform Implementation (DPI) projects using services such as Azure Data Factory, Azure Synapse Analytics, Azure Databricks, Azure Firewall, Microsoft Purview, and Microsoft Fabric. Proven ability to work across data integration, governance, and security in enterprise cloud environments.
- **Learn And Build** {Mobile App Development Intern}   May 2023 - July 2023
    - Developed a Flutter-based mobile app for shoe shopping with a clean UI/UX. Features: Product catalog, secure order system, feedback form, and in-app customer support.

PROJECTS

- **Goodman Fielder in Cloud Infrastructure**   DEC 2024
    Executed for an Australian client under Celebal Technology
    1. Performed Data Platform Implementation (DPI) tasks, including data ingestion and pipeline development using Azure Data Factory.
    2. Utilized Microsoft Fabric to manage the complete data analytics lifecycle covering ingestion, transformation, real-time analytics, data science workflows, and BI reporting.
    3. Implemented Microsoft Purview for centralized data governance and compliance.
    4. Managed Azure Firewall configurations to monitor and control network traffic securely.
- **Shoe Sales Application**   SEPT 2023
    Shoe Sales Application for a client under Learn and Build
    1. Developed a Flutter-based app for seamless shoe sales with features like product browsing, secure ordering, feedback, and customer support.
    2. Conducted functional, end-to-end, and UAT testing; created test cases and performed manual testing.
